

Attention Applicants with Documents in a Foreign Language:

The **Georgia Board of Massage Therapy** has approved a credentialing agency, **International Consultants of Delaware, Inc. (ICD)** to review and evaluate any/all foreign documents for consideration as part of the application process. If your massage therapy education was obtained in another country other than the United States, and/or is not written in the English language, you will need to contact ICD to provide an evaluation report/English translation of your education credentials for submission to the Board for review.

The Board is looking into the approval of other credentialing agencies as well. Until additional agencies are approved, before using another agency, please submit that agency's information to the Board for review and approval.

Before applying, you may consider having your foreign educational credentials evaluated by **ICD** to assure that you meet the criteria for licensure as a Massage Therapist in the state of Georgia.

Please contact **ICD** for further instructions on the credentialing process and fees. Their mailing address, website address and phone number is:

International Consultants of Delaware, Inc.
